About Digirad

Digirad provides diagnostic medical imaging systems and services to physicians' offices, hospitals and imaging centers for cardiac, vascular, and general imaging applications. Digirad's Cardius XPO line of nuclear imaging cameras use patented solid-state technology and unique multi (single, dual, triple) head design for superior performance and advanced features for sharper digital images, faster processing, compact size, lighter weight for portability, ability to handle patients up to 500 pounds, and improved patient comfort compared to standard nuclear cameras. Digirad's 2020tc general-purpose nuclear imager has a small footprint and may also be configured for fixed or mobile use to supplement primary imaging. Digirad's installed base of equipment exceeds 450 systems; in addition, a mobile fleet of more than 120 nuclear and ultrasound imaging systems is being used in 22 states, primarily in the eastern, midwestern and southwestern United States.
