EMRISE RECEIVES INITIAL ORDERS FOR SUPPLY OF TIEMPO® EDGE NETWORK TIMING SYSTEMS FROM A MAJOR US COMMUNICATIONS CARRIER

RANCHO CUCAMONGA, Calif., October 18, 2007 - EMRISE CORPORATION (NYSE ARCA:ERI), a multi-national manufacturer of defense and aerospace electronic devices and communications equipment, today announced that its subsidiary, CXR Larus Corporation, has received initial orders from a major national U.S. carrier for its StarClock™ Tiempo® next-generation network timing system.

Carmine T. Oliva, EMRISE Chairman, President and CEO, remarked: "Securing this order from the first major national carrier to select our StarClock Tiempo for their next generation network is a significant milestone in the growth of the Tiempo business. This order provides yet another validation that the Tiempo meets or exceeds the form, features, function and price that is required for timing and synchronization of today's nationwide networks. We believe that with Hitachi OMD as the manufacturer of our products, we will be able to provide the high volume and high quality products that this and other carriers require for nationwide programs and for the expansion of their networks. We believe our product has a strong value-feature advantage over competing products which will continue to drive strong demand for StarClock Tiempo. This order adds to a growing list of public utilities, system integrators, private networks and other communications carriers that have selected the StarClock Tiempo for their advanced network synchronization and timing needs and we anticipate that other carriers will follow this trend."

About EMRISE CORPORATION

EMRISE Corporation is a multi-national manufacturer of defense, aerospace and industrial electronic devices and communications equipment. EMRISE's electronic devices group, which consists of EMRISE Electronics Corporation and its international subsidiaries, provides power conversion, RF devices as well as digital and rotary switches to the North American, European and Asian electronic market. EMRISE's communications equipment group, consisting of CXR Larus Corporation and its subsidiary CXR Anderson Jacobson, provides network access and timing and synchronization products to the North American, European and Asian communications industry. Founded in 1983, EMRISE operates out of facilities in the United States, England, France and Japan. As of September 30, 2007, EMRISE had approximately 298 employees in its various subsidiaries and divisions. Website: www.emrise.com. Listed on NYSE Arca under the ticker symbol: ERI.

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995.

With the exception of historical information, the matters discussed in this press release, are forward-looking statements that involve a number of risks and uncertainties. The actual future results of EMRISE CORPORATION could differ from those statements. Factors that could cause or contribute to such differences include, but are not limited to, EMRISE's ability to fulfill existing or future orders for its Tiempo® and other timing related products, EMRISE's ability to secure future orders for Tiempo, the ability for Tiempo to meet or exceed customer expectations with regard to form, features, function and/or price, the ability of EMRISE through its manufacturer, Hitachi OMD, to provide high volume and/or high quality products that will meet carrier expectations, the ability of EMRISE to provide a product which is deemed to have a strong value-feature advantage over other competitive products, the ability of EMRISE to predict future demand for Tiempo, the ability of EMRISE to predict with any degree of accuracy what other carriers will do in the future, unforeseen technical problems, unforeseen supply issues, the ability to obtain new business or to build upon existing business with new or existing customers and those factors contained in the "Risk Factors" Section of the Company's Form 10-K for the year ended December 31, 2006 and other Company filings.
