## EMRISE ANNOUNCES FIRST INTERNATIONAL ORDERS FOR TIEMPO<sup>®</sup> EDGE NETWORK TIMING SYSTEMS

RANCHO CUCAMONGA, Calif., October 23, 2007 - EMRISE CORPORATION (NYSE Arca: ERI), a multi-national manufacturer of defense, aerospace and industrial electronic devices and communications equipment, today announced that its French subsidiary CXR Anderson Jacobson (“CXR-AJ”) has received initial orders from a large French speaking North African country for immediate delivery of its recently CE approved StarClock<sup>™</sup> TiemPo<sup>®</sup> edge network timing product, (“TiemPo”), to support its network infrastructure upgrade program.

Commenting on the order, EMRISE Chairman, President and CEO, Carmine T. Oliva, stated: “This is a vital strategic win for EMRISE. We are pleased this contract followed within only 90 days of our recent press release announcing receipt of CE certification for TiemPo. The CE certification allows us, for the first time ever, to sell our timing products into European, Middle Eastern and African, among other world markets. TiemPo will be an integral part of this country’s communication network infrastructure upgrade. Our product will be integrated with switches and other network equipment supplied by other major multi-national suppliers. This we believe will give EMRISE the opportunity to build a relationship with these other suppliers for possible future infrastructure programs elsewhere in the world.”

### **About EMRISE CORPORATION**

EMRISE Corporation is a multi-national manufacturer of defense, aerospace and industrial electronic devices and communications equipment. EMRISE’s electronic devices group, which consists of EMRISE Electronics Corporation and its international subsidiaries, provides power conversion, RF devices as well as digital and rotary switches to the North American, European and Asian electronic market. EMRISE’s communications equipment group, consisting of CXR Larus Corporation and its subsidiary CXR Anderson Jacobson, provides network access and timing and synchronization products to the North American, European and Asian communications industry. Founded in 1983, EMRISE operates out of facilities in the United States, England, France and Japan. As of September 30, 2007, EMRISE had approximately 300 employees in its various subsidiaries and divisions. Website: [www.emrise.com](http://www.emrise.com). Listed on NYSE Arca under the ticker symbol: ERI.

### **Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995.**

*With the exception of historical information, the matters discussed in this press release, are forward-looking statements that involve a number of risks and uncertainties. The actual future results of EMRISE CORPORATION could differ from those statements. Factors that could cause or contribute to such differences include, but are not limited to EMRISE’s ability to obtain future orders for network access products, EMRISE’s ability to successfully configure and/or ship TiemPo<sup>®</sup> products to this French speaking North African country or any other future customers, EMRISE’s ability to sell additional TiemPo<sup>®</sup> units into European, Middle Eastern, African or any other world markets, EMRISE’s ability to build relationships with suppliers for possible future infrastructure programs elsewhere in the world, unforeseen manufacturing or supplier problems, unforeseen technical problems and those factors contained in the “Risk Factors” Section of the Company’s Form 10-K for the year ended December 31, 2006 and other Company filings.*
